MAIN IDEA QUESTIONS

One common question type asks you to identify the main idea of the passage or a section. For "**Know Your Money**", the main idea is likely about understanding the fundamentals of money: how it originated, how it works today, and how to manage it wisely. Look for the sentence or idea that the entire passage supports, not just a small detail.

DETAIL-ORIENTED QUESTIONS

To answer these correctly, practice scanning the text for keywords and re-reading the relevant sentences carefully. The answers are almost always stated directly in the passage.

answer is not directly stated, but you can infer it from information about scarcity, durability, and cultural acceptance.

VOCABULARY IN CONTEXT QUESTIONS
